

### Women Host Sobada Dance For Husbands

Sobada Club made the most of Lent. Young people of the women members reversed the traditional procedure and played host to men during the monthly dance at Club Alondra.

New members of the group were welcomed during the evening, among them Dr. and Mrs. Eugene Cook, Messers, and Mrs. Clyde Anderson, Bob Moffitt, Wally Moody and Paul Koettger.

Unusual name cards provided the incentive for a novelty dance. Each member's name was written on a jig-saw puzzle heart and these were matched to find partners. During the Cinderella dance, women chose loose shoes and searched for the man wearing the mate.

Announcement was made of the March dance which will take place on the 22nd at Club Alondra.

### World Fellowship Group To Give Latin Program, Dinner Tomorrow-Night

Tomorrow at 6 p.m. the Girls World Friendship Group of First Methodist Church will sponsor a dinner and Spanish-American fiesta program at the church.

Speaker of the evening will be Miss Marilyn Mosler of the Frances De Pauw School for Girls, who will discuss her training for missionary work.

Musical numbers with a Latin twist will be presented by Harold Holmes, Mary Lou Hutchison and Yolanda Goldsmith. The young people will don South American costumes for their program.

Proceeds from the venture are slated in part for the summer camp fund. Admission for adults is 75 cents and for children, 50 cents. Members and friends of the church are welcome.

### Garden Club Speaker Reveals Secrets of Tree, Flower Care

Tomorrow is the day set aside by the State of California for tree planting—Arbor Day.

Using this as his introductory theme, Kenneth Terry of New-corn Nursery last Wednesday addressed members of the Torrance Terrace Garden Club in the John H. Ericson home, 22407 Denker Ave.

Terry also presented timely tips on spring gardening, listing flowers which can be planted and seeded this month, and important points of pest control.

"Trees," said the speaker, "should be planted with grand children in mind. Many of the prettiest and sturdiest trees take 20 to 35 years to reach maturity, and their beauty will be best enjoyed by future generations."

Bare root trees and evergreens best for the Torrance area were discussed. Terry pointed out that Californians often miss some of the prettiest trees because they tend to stick to evergreens.

Among the trees he recommended for parkway and yard planting were sycamores, tulip trees, Chinese elms, Brazilian peppers and Shamel ashes. Others were acacias, carobs, locusts, jilly-of-the-valley trees, magnolias, holly-leaf oaks and fern pines.

Plants to be set out this month for best blossoming later in the season include calendulas, pansies, stocks, snapdragons, gladioli and tuberous begonias. Seeds which can be sown include nemophila, nemophila, marigolds, bedding begonias and phlox.

Garden care is very important at this time of the year, according to Terry. He said fruit and rose trees should be pruned and mild sprays used.

One difficulty encountered by would-be horticulturists in a d around Torrance is the peculiar yellow which appears in lawns and leaves. Terry said that this is caused by alkali salts in the water and may be corrected by the use of gypsum solution and fertilizer. Iron sulfate was recommended for emergency treatment.

Mrs. Minot F. Eugg presided over the meeting, to which many members brought guests. The next will be March 12 at the home of Mrs. Albert Ewalt, 1622 W. 215th St.

Market-Town & Hawthorne Women's Club Invite You to

## A BENEFIT BREAKFAST

at HAWTHORNE MARKET-TOWN  
Saturday, March 8 - 8 a.m. to 11 a.m.

## Do you dread washday?

Then you need an automatic GAS CLOTHES DRYER

If you still dry your laundry outdoors, you're working much too hard. You need an automatic gas clothes dryer that dries clothes indoors—that dries them fluffy-soft in a matter of minutes—that's ready to serve you day or night, rain or shine.

Tossing wet laundry into an automatic gas clothes dryer is as easy as tossing it into a hamper. You set the control for bone-dry—or ironing-damp, which eliminates sprinkling. Without lugging heavy baskets to clothes lines—without hanging up and taking down—you have spotless, sweet-smelling clothes quickly and easily.

Gas dries laundry faster than Southern California sunshine... faster than any other fuel. Gas costs little, too—only 2¢ to 3¢ per dryer-full. See your appliance dealer today. See a demonstration and learn that the installed prices of gas clothes dryers are lower than those of other automatic dryers.

Automatic Gas Clothes Dryer Illustrated is WHIRLPOOL. Other leading makes include: BENDIX, HAMILTON, KENMORE, TEMCO.
